PROFESSIONAL SUMMARY

Computer Science undergraduate with a strong foundation in **Data Structures and Algorithms and an interest in AI/ML development**. Skilled in building AI-powered projects and **web applications**, with a focus on problem-solving, scalable solutions, and using AI tools to enhance technical skills.

SKILL

Languages: C, C++, Python, JavaScripts
Core Concepts: Data Structures and Algorithms, Object-Oriented Programming (OOP)
Frameworks & Libraries: React.js, Tailwind CSS, PyQt5, Selenium
Databases: MySQL, PostgreSQL, Supabase
Tools & Platforms: Git, GitHub workflow, GitHub Actions workflow (basics- CI/CD)

PROJECTS & INTERNSHIP

AI Personal Assistant Hinata | Python, PyQt5, Groq API, Hugging Face, Selenium, HTML, CSS, JavaScript, TTS, Pygame **Live** **90 Days**

- Developed an interactive AI-based desktop assistant using Python and PyQt5 with an integrated GUI to handle user commands and display responses in real time.
- Implemented speech recognition, chatbot interaction, real-time search, and text-to-speech modules to enable natural language communication between the user and the system.
- Utilized multithreading and modular backend architecture to efficiently manage task automation, decision-making, and seamless coordination between backend processing and the graphical interface

PKey - Personal emergency-access vault | **App** React, FastAPI, PostgreSQL, Supabase, Vercel, Render **Live** **15 Days**

- Built a web vault to access documents, photos and emergency contacts from any browser when my phone is dead or lost, with an "Emergency View" for essential items only.
- Developed a React frontend and FastAPI backend with PostgreSQL for data and S3-compatible storage for files.
- Secured it with Argon2 hashing, JWT sessions and per-user data isolation, and deployed it on Vercel and Render with GitHub auto-deploy.

RAG Based Chatbot Emly (Intern) | Python, FastAPI, React.js, LangChain, Hugging Face, FAISS, Groq, Supabase, PostgreSQL, pgvector **Live** **30 Days**

- Built a RAG-based chatbot to answer user queries using information retrieved from uploaded documents.
- Implemented vector database-based semantic search to efficiently store, index, and retrieve relevant document content.
- Integrated LLM-based response generation with retrieved context to provide accurate and relevant answers.

ACHIEVEMENTS & CERTIFICATIONS

- AI Agents Intensive Kaggle X Google
- Google Gemini Student Ambassador 2026 - 2027
- AWS Academy Graduate - Generative AI Foundations
- Solved 150+ problems on LeetCode with a 250+ contest rating.
- Secured 5 Star badge at Hacker Rank.
- Secured 1st and 2nd positions in dance competitions 2024

INTERPERSONAL SKILLS & EXPERIENCES

- Hardworking, Adaptability,Focused & Responsible
- Pull Request GitHub workflow
- Leadership (Event Coordinator – Managed a team of 50+ volunteers during college events)

EDUCATION

B.Tech in Computer Science and Engineering **Expected: 2028**
Chandigarh Engineering College, CGC, Landran CGPA: **8.3** / 10

Intermediate(XII) **2020- 2022**
Gaya College Gaya (Bihar) BSEB 80%

Matriculation (X) **2019 - 2020**
Janta High School, Dumaria, Gaya (Bihar) BSEB 78%

HOBBIES & INTERESTS

Hobbies: Dance, Fitness, Exploring AI Technologies
Interests: Reading books, Talking to new people

LANGUAGES

English, Hindi, Magdhi
